MEMORANDUM

To: Choctaw Generation Limited Partnership, LLLP – CCR Operating Record

From: Brian Ketchum, ECS

Re: Notice of Constituent Detected at Statistically Significant Levels above Groundwater Protection Standards

Date: June 18, 2019

Choctaw Generation Limited Partnership, LLLP (Choctaw Generation), located in Ackerman, Mississippi, operates a single unit electrical generation facility designed to generate electricity for dispatch to the Tennessee Valley Authority (TVA) electrical system. Red Hills owns and operates an existing Ash Management Unit (AMU) required to meet the requirements for landfills under the Coal Combustion Residuals (CCR) Rule of 40 CFR 257, Subpart D.

Per the requirements of 40 CFR 257.95(g), Red Hills is providing notification that an additional constituent has been detected at a statistically significant level (SSL) above the groundwater protection standard: **Beryllium**. Red Hills will complete the notification requirement of 40 CFR 257.95(g) by placing this notice in the facility's operating record on or before July 18, 2019, as required by 40 CFR 257.105(h)(8).
